

CONVERTING GRASS TO MUSCLE IS WHAT WE DO

"Casey 5-48" CSS Semen & Herd Sire

Casey 5-56

*Unretouched range photographs taken
5-10-10 by Watt M. Casey, Jr.
Bulls raised on grass, not blown up with feed.*

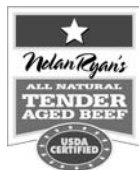

Casey Beefmasters appreciates each **CUSTOMER** who has contributed to our success since 1948.

Customers come from Alabama, Arizona, California, Colorado, Florida, Illinois, Indiana, Louisiana, Minnesota, Missouri, Mississippi, New Mexico, Oklahoma, Tennessee, ALL OVER TEXAS, Utah and several foreign countries. Many purchase bulls on an annual basis (some for 35 years). Others have made multiple cattle purchases over the years; and some who have recently purchased their first **CASEY BEEFMASTER BULL**, we look forward to seeing over and over again in the future.

*Discover what **CASEY BEEFMASTER** genetics will do for your commercial or purebred herd and what they will do when **CROSSED with** your **Angus** and **Brangus** females? Customers in several states tell us how outstanding and profitable the calves are.*

SEMEN: \$17.50 PER STRAW – AT WORK IN AFRICAN COUNTRIES, MEXICO AND USA.

AVAILABLE: CSS Semen and Retired Herd Sires, like 5-56 above and an excellent selection of young yearling virgin bulls. Clean underline, gentle, fertile, muscular, sexually-aggressive and raised and selected for the SIX ESSENTIALS.
